

GDI-DE Testsuite

Testbericht

Name	Sentinel Metadaten Inspire
Beschreibung	
Testklasse	Metadaten Metadata: INSPIRE
Konformitätsklasse	Metadata: INSPIRE Requirements (Version 1.0.3 29.11.2013), Metadata: ISO Requirements (Version 1.0.7 20.12.2013)
Getesteter Datensatz/Dienst	s1a-iw-grd-hh-20140501t162232-20140501t162307-000406-000486-001.xml
Ausgeführt am	10.07.2014 09:06:08

	Name	Anforderung	Meldung
	md_start	Testing Metadata According to INSPIRE	- WARNING: The GML version of your document could not be determined. Your schemaLocation should point to either http://schemas.opengis.net/iso/19139/20060504/gmd/gmd.xsd or http://schemas.opengis.net/csw/2.0.2/profiles/apiso/1.0.0/apiso.xsd (GML 3.2.0), http://standards.iso.org/ittf/PubliclyAvailableStandards/ISO_19139_Schemas/gmd/gmd.xsd or http://schemas.opengis.net/iso/19139/20070417/gmd/gmd.xsd (GML 3.2.1). Your schemaLocation attribute is "". As a fallback, all validations will assume GML 3.2.0
	md_2113	A metadata language is given.	
	md_2112	A metadata date is given.	- FAILURE: Metadata date not found at "gmd:dateStamp".
	md_2111	At least one point of contact must be given.	- FAILURE: At least one point of contact must be given at "gmd:contact".
	md_2102	Every responsible organization must name a responsible party role.	- FAILURE: At least one responsible party role must be given at "gmd:identificationInfo[1]*/gmd:pointOfContact*/gmd:role".
	md_2101	Every responsible organization must name a responsible party which consists or the organization name and an email address.	- FAILURE: At least one responsible party must be given at "gmd:identificationInfo[1]*/gmd:pointOfContact".
	md_292	Conditions applying to access and use must be described at least once for the resource	- FAILURE: There must be at least one free text statement on Conditions applying to access and use for the resource but none was found.
	md_291	Limitations on public access must be described at least once for the resource	
	md_282	A citation of the product specification or user requirement against which data is being evaluated should be given.	- WARNING: At least one data specification should be given at "gmd:dataQualityInfo*/gmd:report*/gmd:result*/gmd:specification".
	md_281	A conformity statement with a result of conformance evaluation must be given.	
	md_272	A properly formatted equivalent scale or resolution may be specified.

	md_start	Testing Metadata According to INSPIRE	- WARNING: The GML version of your document could not be determined. Your schemaLocation should point to either http://schemas.opengis.net/iso/19139/20060504/gmd/gmd.xsd or http://schemas.opengis.net/csw/2.0.2/profiles/apiso/1.0.0/apiso.xsd (GML 3.2.0), http://standards.iso.org/ittf/PubliclyAvailableStandards/ISO_19139_Schemas/gmd/gmd.xsd or http://schemas.opengis.net/iso/19139/20070417/gmd/gmd.xsd (GML 3.2.1). Your schemaLocation attribute is "". As a fallback, all validations will assume GML 3.2.0
	md_261_262_263_264	At least one temporal reference is given as a temporal extent, a date of publication, date of last revision or date of creation.	- FAILURE: No valid temporal reference was found
	md_242	If the INSPIRE thesaurus is given (GEMET - INSPIRE themes, version 1.0), the "thesaurusName" element must be properly formatted.	
	md_241	At least one keyword is given.	- FAILURE: At least one "gmd:keyword" is expected at "gmd:identificationInfo[1]*/gmd:descriptiveKeywords/*"
	md_224	If a linkage is available, a resource locator is given.	
	md_223	A resource type for identification was given and contains a properly formatted MD_ScopeCode object.	- FAILURE: Resource Type not found at "gmd:hierarchyLevel"
	md_222	A resource abstract describing the resource was given.	- FAILURE: Resource abstract not found at "gmd:identificationInfo[1]*/gmd:abstract"
	md_221	A resource title for identification was given.	- FAILURE: Resource title not found at "gmd:identificationInfo[1]*/gmd:citation*/gmd:title"
	md_validateDoc	The metadata document is valid against the schema at http://www.isotc211.org/2005/gmd	- FAILURE: The Metadata Document seems to be invalid according to the schema at " http://www.isotc211.org/2005/gmd/gmd.xsd "

	Name	Anforderung	Meldung
	iso_md_start	Testing Metadata According to ISO 19115/19119.	
	iso_md_2112	A metadata date is given. This should be the date that the metadata was created.	- FAILURE: Metadata date not found at "gmd:dateStamp";
	iso_md_2111	At least one point of contact must be given. It must contain one of individualName, organisationName and positionName and must contain a role.	- FAILURE: At least one point of contact must be given at "gmd:contact";.
	iso_md_282	A citation of the product specification or user requirement against which data is being evaluated must be given.	
	iso_md_272	A properly formatted equivalent scale or resolution may be specified.	
	iso_md_261_262_263_264	At least one temporal reference is given as a temporal extent, a date of publication, date of last revision or date of creation.	- FAILURE: No valid temporal reference was found
	iso_md_251	For datasets, an explicit geographic extent must be given. For series and services, this is optional.	
	iso_md_224	If a linkage is available, a resource locator is given.	
	iso_md_223	A resource type for identification was given and contains a properly formatted MD_ScopeCode object.	- FAILURE: Resource Type not found at "gmd:hierarchyLevel";
	iso_md_222	A resource abstract describing the resource was given.	- FAILURE: Resource abstract not found at "gmd:identificationInfo[1]*/gmd:abstract";
	iso_md_221	A resource title for identification was given.	- FAILURE: Resource title not found at "gmd:identificationInfo[1]*/gmd:citation/*gmd:title";
	GDIDE_Metadata.scope	If a dataQualityInfo object is given at "gmd:dataQualityInfo/gmd:DQ_DataQuality";, the scope of a data quality info must be given.	
	GDIDE_Metadata.connectPoint	If the resource is a service, a connect point must be given.	

	Name	Anforderung	Meldung
	iso_md_start	Testing Metadata According to ISO 19115/19119.	
	GDIDE_Metadata.distributedComputingPlatform	If the resource is a service; a distributed computing platform must be given.	
	GDIDE_Metadata.operationName	If the resource is a service; an operation name must be given.	
	GDIDE_Metadata.hierarchyLevelName	If the type of the resource was not dataset; the hierarchy level of the resource must have a name.	- FAILURE: The hierarchy level must be named at gmd:hierarchyLevelName/gco:CharacterString;
	GDIDE_Metadata.fileIdentifier	The resource must be identified by a unique file identifier.	
	iso_md_enc	If a character set encoding is specified; it is either of type CI_CharacterSetCode and is one of the encodings specified in ISO 19115; Annex B or provides a URL to a list of possible encodings and gives one of these encodings.
